INTRODUCTION

Genie is a deflationary & BUSD rewarding meme token built on the Binance Smart Chain which rewards all investors in BUSD for holding \$Genie coins in their wallet.

Genie's smart contract gets 14% fees from every buy/sell, 8% of them are re-distributed to all holders in the form of BUSD, 2% goes to the liquidity pool, 2% goes to the strategic buyback + burn wallet, and 2% goes to the marketing wallet.

Genie is not just a meme token, it's ecosystem contains multiple utility use cases which are discussed on the next section.

Genie Swap

Genie Swap will be \$Genie Coin's own decentralized exchange.

How Genie Swap will impact \$Genie's value: Genie Swap will enable users to stake their \$Genie coins on the pool to earn new meme coins. Staking means these tokens are getting locked decreasing the total circulating supply as a result the price of \$Genie will move up.

Genie Wallet

Genie Wallet will be \$Genie Coin's own decentralized crypto wallet.

How Genie Wallet will impact \$Genie's value:

Genie Wallet will enable users to store their multiple coins or tokens on multiple blockchains together on Genie Wallet. Users will be able to swap their tokens and coins directly on the wallet through Genie Swap. Both Genie Wallet & Swap will promote \$Genie as their main currency like BNB on PCS.

Genie Launchpad

Genie Pad will be \$Genie Coin's own launchpad for meme tokens on every blockchain.

How Genie Wallet will impact \$Genie's value: Genie Pad will be the best platform to launch potential meme tokens and will be governed by the \$Genie Coin and its team. Users will be required to stake a minimum of \$100 of \$Genie coins for at least 10 days to be able to participate on IDOs. As discussed earlier, staking means \$Genie's price will move up!

Genie Luck Lotto

Genie Lotto will be \$Genie Coin's master stroke to disrupt the physical lottery industry all over the World.

How Genie Lotto will impact \$Genie's value:

We believe that Genie Lotto will be enough to disrupt the whole physical lottery industry from all over the World and bring the revolution of decentralized lottery industry.

Participants have to buy \$05 or \$10 worth of tickets with their \$Genie to enter the reward pool. For \$5 tickets first prize is \$50000 and \$100000 for \$10.

Genie Play

Genie Play will be \$Genie Coin's play-to-earn blockchain gaming platform.

How Genie Play will impact \$Genie's value:

The game will have two two options available: On the first option players will have to scratch the magic lamp and the Genie will reward some random amount of \$Genie.

The second option will be for pro gamers where users have to buy in-game utilities with \$Genie to play the game. *The ideas will be modified in future.

Genie Digital

Genie Digital will be the biggest meme NFT marketplace for meme lovers.

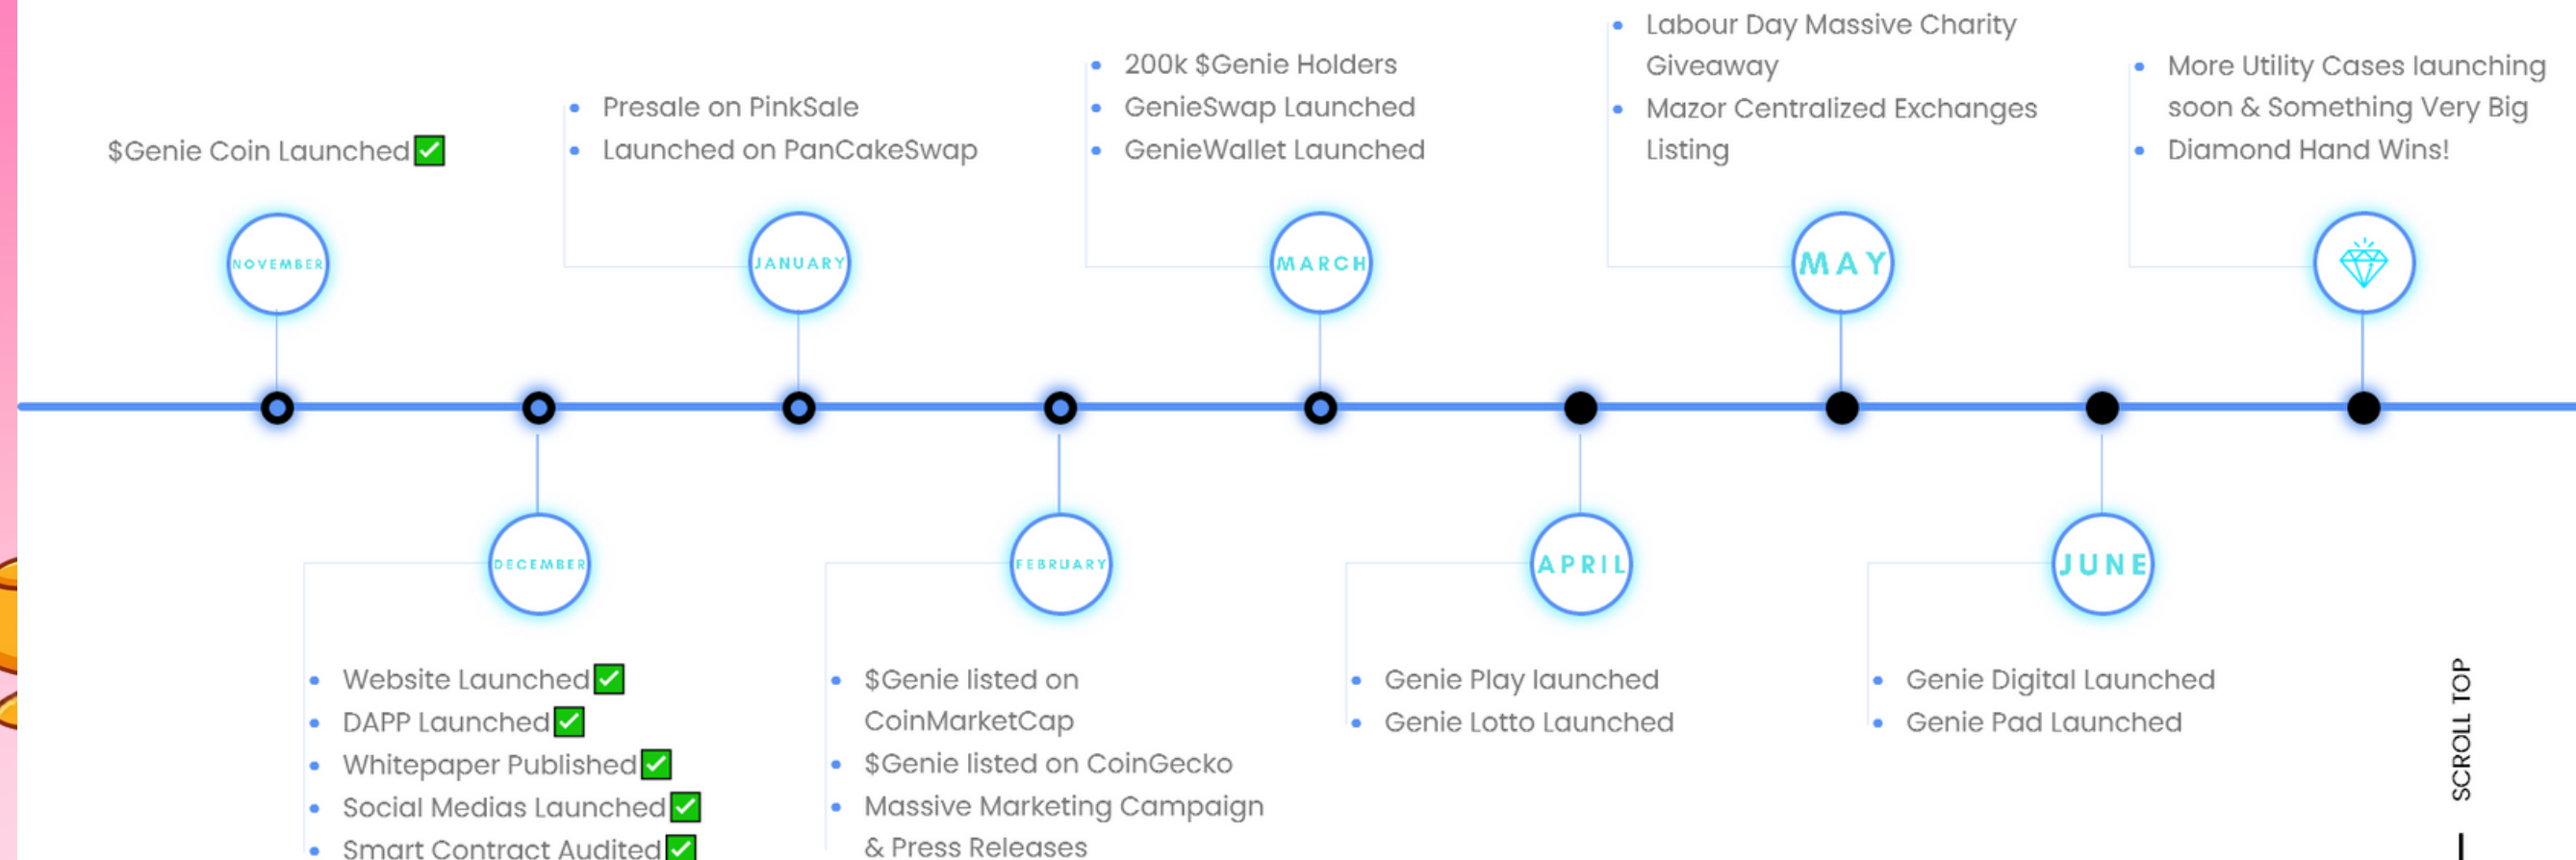

How Genie Digital will impact \$Genie's value:

There are so many NFT marketplace on the blockchain industry but we want to make a separate marketplace only dedicated to the meme Universe. Genie Digital will offer buying, selling, lending and borrowing meme NFTs. The whole marketplace will be governed by \$Genie Coin.

ROADMAP

This map declares how \$Genie Coin's team planning to expand the growth of the Coin. Remember: More steps will be added one by one.
